equipment data sheet

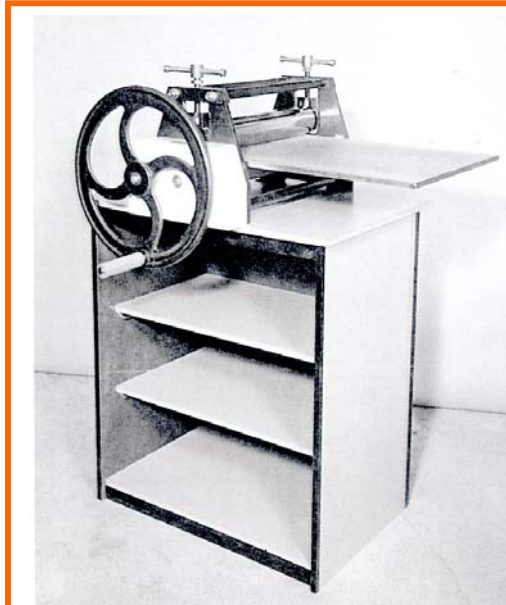

etching press

model ref: 3318

Description

A really remarkable press to give professional results to all, and at a very reasonable and competitive price. Available for bench mounting (total weight 220 Lbs)or on the attractive and useful cabinet stand finished in 'Warerite' as illustrated.

Recommended blankets:
One quality fronting, and either one thick, or for fine work, two pure wool blankets.

Specification

Strength has been the paramount thought behind this design. Special features are:

- 1/2 inch plate steel side frames.**
- Solid 3-inch diameter top roller, ground and plated.**
- Solid top bearers to enable adequate pressure through 5/8 inch adjusting screws.**
- Ball races on both rollers.**
- Ground plate steel plank 33 x 18 x 1/2 inches.**
- Drive from handwheel through gearing to give the smooth but necessary feel when maximum pressure is required.**
