## A777 “DOT SHARPENER” BLANKET FOR HIGH QUALITY SHEET FED OFFSET

For the most demanding print reproduction, the EXTRA FINE SURFACE is engineered to reproduce fine screens with the sharpest dot and minimum dot gain. For high speed multi-colour sheet fed presses. Recommended for all stock types.

- New surface compound and treatment
- Extremely sharp reproduction
- Micro-buffed for quick release and optimum ink transfer
- Accurate register control
- Consistent thickness
- Resilient, durable compressible layer
- Resistant to sinking or gauge loss
- Resistant to paper edge marking with different paper sizes
- Very good resistance to smashes and edge cutting
- Back fabric sealed to repel water and solvent
- Low plate wear
- Fast wash-up and high chemical resistance

### A777 Technical Data

Surface Material	Micro-ground green ANPS compound
Surface Roughness	0.94
Overall Hardness	78° Shore “A”
Thickness	1.96mm
Gauge loss after running in	0.05mm
Construction	3 fabric plies with high profile closed cell layer
Elongation	0.5% (500N / 50mm)
Tensile strength	>1850 N/m
