Plate punch

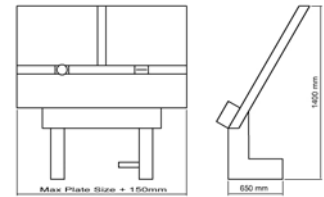

model ref: Billows Protocol BH18

Description

Manually Operated Plate Punch

The Billows Protocol Universal Floor Standing Foil and Plate Punch is a foot operated machine.

Billows Protocol has produced this style of machine for over 40 years, with thousands of models in use around the world. The Plate Punch is a sturdy and reliable machine, hand built by our skilled assembly staff and with the use of modern manufacturing techniques the machine is kept at an affordable and competitive price.

Specifications

Operation :

Manual Foot Operation, leaving hands free to load and unload.

Plate Positioning :

Auto Centring unit paired with fixed backstops to match press manufacturers specification.

Side stop position can be locked into position after setting the first plate, to allow accurate punching every time.
