PRODUCT INFORMATION

Product name	Hunterpress GS Multifin
Description	<ul style="list-style-type: none">• Plate Processing Gum• 11°Be grade synthetic formula• Suitable for positive and negative plates• Automatic or manual processing
Applications	Finishing of plates during processing and before printing, and for short term storage. Suitable for use in any clean processor.
Directions for use	<p>Processor: Tanks, spray nozzles and rollers must be clean and correctly adjusted. Dilute with water 1:1. Periodically add more water to counteract evaporation.</p> <p>Manual use: Plate and working surface must be clean and free from developer. Remove any excess water from the plate. With a sponge, apply a thin layer of GS Gum evenly over the entire plate. Using a dry, lint-free cloth, buff down to a very thin, even coating.</p>
Sizes available	5 litres, 25 litres, 200 litres
