# Imposition Publisher™

# PDF Native

*Electronic imposition  
for PDF workflows*

## MAIN FEATURES

Imposition Publisher™ PDF is the electronic imposition solution specifically designed for PDF workflows. Designed for DTP users, with an intuitive user interface, Imposition Publisher PDF uses a Native PDF processing engine to automatically extract page size, embedded font information and other data from PDF files. This reduces the number of steps to impose a job, making it far simpler to use. By imposing PDF files direct, without any intermediate processing, the imposition process is much faster and more reliable.

### IMPOSITION

- Handles all perfect bound, saddle stitched, step & repeat, coming & going and incremental imposition schemes
- Create & save custom impositions plus comes with a complete library of standard imposition templates that can be edited
- Process up to 1,024 PDF pages in a job
- Drag and drop page re-ordering
- Allows insertion of blank pages
- Impositions are independent of page size so fewer impositions are needed
- Automatic page numbering
- Handles bleed automatically
- Can set trims individually
- Able to creep and bottle pages
- Supports double page spreads

### FLATWORK

- Can arbitrarily place pages of different size onto a single sheet
- Automatic placement with snap to grid option to allow easier placement of pages
- Automatic backing up of pages
- Ability to step and repeat pages
- Can position each page anywhere on output area with any orientation

### UNIQUE PDF INTERROGATION SYSTEM

- Extracts more information from PDF files, so less user input is required
- Smaller output files for higher productivity

### OPTIMISATION

- Media Saving function optimises files to the Imagesetter, Digital Printer or CTP system to achieve the most economical material usage
- Automatic adjustment of crop mark length

## SYSTEM SPECIFICATION

### Mac OS

- Power Macintosh:
  - System 8.5 or higher
  - At least 32 Mbyte free RAM
- Sufficient Hard Disk space is required to hold input & output PDF files and for temporary scratch space.

### PRINTER SETUP AND PRINTING OPTIONS

- Custom imposition alignment and offsets
- Save multiple printer set-ups for different output devices
- Can add a job name to the imposition
- Manual duplexing options
- Automatic scaling to fit a proofing device
- Supports mirroring, negative output or both
- Outputs to any width imagesetter or CTP

### PRINT MARKS

- Comes with an extensive suite of standard print marks, including crop marks, colour bars, Heidelberg CPC marks etc.
- Able to change positions of standard marks and add custom marks
- Can add an extensive user label anywhere on the output
- Print marks can be saved in different sets to allow users to easily switch between set-ups

### AUTOMATIC FONT & COLOUR HANDLING

- Unique font handling avoids the need to have customer fonts on your system
- Processes composite and separated PDF files
- Extracts colour order and information automatically from PDF files
- Colour separates colour bars and marks automatically
- Displays the colour of each separation
- Can select which colour separations to print

### OTHER MAJOR BENEFITS

- PDF Preview feature allows impositions to be checked on screen before output
- Works with all major OPI servers
- Supports all standard units of measurement
- Handles nested EPS files
- Supports one output file per block
